EDUCATION

October 2021

SBRR MAHAJANA FRIST GRADE COLLEGE, PG WING, MYSORE.

- Master of Computer Applications

May 2018

P E S COLLEGE OF SCIENCE, ARTS AND COMMERCE, MANDYA.

- BSc in Computer Science

SKILLS

- Databases: MySQL, Microsoft SQL Server, Oracle
- SQL: T-SQL, Query Optimization, Stored Procedures, Views, Indexing.
- ETL & Data Processing: SSIS, Data Transformation and Warehousing.
- Visualization & Reporting: Power BI, and MS Excel.
- Programming Language: Python (Pandas, NumPy, Matplotlib).
- Key Competencies: Data Analysis, Exploratory Data Analysis (EDA), Database Design.

SOFT SKILLS

- Adaptability
- Teamwork
- Time management Skills
- Communication
- Problem Solving

LANGUAGES

- English
- Kannada

AMITH S
DATA ANALYST

PROFILE

Results-driven Data Analyst with 1.5 years of experience in SQL development, data analysis, and business intelligence. Skilled in designing and optimizing complex SQL queries, ETL pipelines, and dashboards using Power BI and Excel. Adept at uncovering actionable insights from large datasets to support data-driven decision-making. Seeking to leverage my analytical and technical skills in a dynamic, data-focused role.

WORK EXPERIENCE

Raice Tech Soft pvt Ltd.   JUL 2023 - DEC 2024
SQL DEVELOPER

- Developed and optimized complex SQL queries and stored procedures to improve database performance.
- Maintained relational databases and ensured data integrity.
- Created and maintained reports using CTEs and SQL views for business insights.
- Automated ETL workflows using SSIS for data import/export.
- Partnered with cross-functional teams to integrate database solutions into software applications.

PROJECTS

HUMAN RESOURCES PROJECT | SQL | LINK

- Analyzed employee workforce data to identify trends in department distribution, average tenure, and salary by job title, aiding strategic HR planning.
- Utilized SQL queries to extract, join, and aggregate data from multiple HR tables, demonstrating strong data wrangling and insight-generation skills.

AMAZON SALES ANALYSIS PROJECT | PYTHON | LINK

- Performed in-depth sales analysis using Python (Pandas, Matplotlib) to uncover monthly trends, top-performing products, and regional sales insights.
- Automated data cleaning and visualization processes to support data-driven decision-making and improve business intelligence efficiency.

FINANCIAL PROFIT ANALYSIS PROJECT | POWER BI | LINK

- Developed an interactive Power BI dashboard to visualize key financial metrics such as revenue, profit margins, and expense breakdowns for strategic decision-making.
- Integrated and transformed data using Power Query and DAX to create dynamic visuals, KPIs, and slicers enhancing financial performance monitoring.

SALES PROFIT AND CUSTOMER METRICS PROJECT | MS EXCEL | LINK

- Analyzed sales performance and customer data using Excel functions, pivot tables, and charts to identify profit-driving products and high-value customer segments.
- Delivered actionable insights through a dynamic dashboard that tracked KPIs such as revenue growth, customer retention, and profit margins.
